**GROVER & BAKER ADDRESS**

To the Nervous AND DEBILITATED.

WHOSE sufferings have been protracted from hidden causes, and whose cases require prompt treatment to render existence desirable.

If you are suffering, or have suffered from involuntary discharges, what effect does it produce on your general health? Do you feel weak, debilitated, easily tired? Does a little extra exertion produce palpitation of the heart? Does your liver, or urinary organs, or your kidneys, frequently get out of order? Is your urine sometimes thick, milky or foamy, or is itropy on setting? Or does a thick skin rise to the top? Or is a sediment at the bottom after it has stood awhile? Do you have spells of short breathing or dyspnea? Are your bowels constipated? Do you have spells of fainting, or rushes of blood to the head? Is your memory impaired? Is your mind constantly dwelling on this subject? Do you feel dull, listless, moping, tired of company, or life? Do you wish to be left alone, away from everybody? Does any little thing make you start or jump? Is your sleep broken or restless? Is the lustre of your eye as brilliant? The bloom on your cheek as bright? Do you enjoy yourself in society as well? Do you pursue your business with the same energy? Do you feel as much confidence in yourself? Are your spirits dull and flagging, given to fits of melancholy? If so, do not lay it to your liver or dyspepsia. Have your restless nights? Your back aches, your knees weak, and have but little appetite, and you attribute this to dyspepsia or liver-complaint?

**DR. PIERCE'S Fountain Nasal Injector, OR DOUCHE.**

This Cut illustrates the manner of Using

This instrument is especially designed for the perfect application of the Catarrh Remedy. It is the only form of instrument yet invented which allows of the application of the fluid in a perfectly safe and comfortable manner, and is perfectly adapted to all parts of the affected nasal passages, and the chambers or cavities communicating therewith, in which cases and where frequently exist, and from which the catarrhal discharge generally proceeds. The want of success in treating Catarrh heretofore has arisen largely from the impossibility of applying remedies to these cavities and chambers by any of the ordinary methods. This obstacle in the way of effecting cures is entirely overcome by the invention of the Injector. In using this instrument, the fluid is carried by its own weight, (no snuffing, forcing or pumping being required,) up one nostril in a full gush, and out the opposite nostril. It is perfectly safe, and so simple that a child can understand it. Full and explicit directions accompany each instrument. When used with the Catarrh Remedy, it is a most valuable and reliable remedy for all cases of Catarrh of the Nose. Frequent headache, watery, thick mucus, purulent, offensive, &c. In other cases, dryness, dry, watery, or inflamed eyes, accompanied or obstructed by nasal passages, ringing in ears, deafness, hoarseness and coughing, voice altered, nasal twang, offensive breath, impaired or total deprivation of sense of smell and taste, and in any case, at once relieved.
